

NOCO **MAX**[™] CLAMPS

Part No.: T120016924

START DEAD BATTERIES.[™]

Heavy-duty design for jump starting.

Rugged battery clamp design for 12 V and 24 V automotive, marine, RV, and truck applications.

A robust and rugged design to provide maximum current flow with minimal power loss. With the high-current ability, the GBC005 Boost MAX[™] 43 cm Battery Clamps have no-melt and smoke-free clamps that are reinforced with all metal construction.

Ultra**Safe**[™]

Protects against reverse polarity, sparks, over-charging, over-current, open-circuits and over-heating.

Heavy-Duty Design

Our no-melt and smoke-free clamps are reinforced with all-metal versus generic clamps, which are all-plastic construction.

**2/0
AWG**

Made from durable, high-performance 2 AWG silicone wire that maintains its flexibility in cold weather environments.

The Boost Max[™] camlock cable connectors will not slip or disconnect from the GB500 when the cables are pulled.

BOOST MAX™ 72-INCH BATTERY CLAMPS

NOCO Boost MAX™ Battery Clamps feature a heavy-duty clamp designed for both 12 V and 24 V petrol and diesel engines in Class 8 +/CE high-displacement vehicles and equipment.

TECHNICAL SPECIFICATIONS

Input:	Camlock Male Connector
Output:	Boost MAX™ Clamps
Length:	210.56 cm
Weight:	3.36 kg

COMPATIBLE MODELS:

Boost Jump Starters	GB500
------------------------	-------

EXCLUSIVELY DESIGNED AND ENGINEERED FOR THE BOOST MAX™ GB500

This may not be a stock item. Please speak to our sales representative about lead times. Lead times, price and availability can only be determined on receipt of an official quote from our supplier. This can sometimes take up to 3 days.
